

- A MORE SUSTAINABLE FUTURE -

Sustainability and environment are high on the agenda for us at Fasty. Our sustainability work is about thinking long-term through, for example, innovative products development but also about thinking of the environment and sustainability in our daily work.

Fasty ECO STRAPS come in black and in 25 mm width with several different lengths. Both our 10-packs and pin-packs are packed in environmentally friendly carton boxes. All our ECO STRAPS are made from 30 % recycled webbing material.

Our ECO STRAPS are very user-friendly and durable. The large opening in the buckle makes it easy to thread the strap, even with gloves on. The webbing itself is UV resistant and has a very high strength and color resistance and also meet the high demands of REACH, RoHS and Oeko-Tex.

All our ECO STRAPS are 100% recyclable - BLACK is the new GREEN

FASTY ECO STRAPS 20 & 25 MM

Black ECO STRAPS 20-25 mm, 10-pack

Packed in environmentally friendly carton box.

Art no.
